RE APOSTOLIC SUCCESSION.
To the Editor of The Times.

Sir,—I do not know if any other church
in the world claims to be in the apostolic
succession, except the Church of England
and the Roman Catholic Church, but I
am aware that there are some members
of both churches who sometimes seem
doubtful as to the real succession, more
particularly so when their ministers are
not found to be what they profess to be.

Notice is hereby given that the Executive
Committee of the Synod of the Diocese of
Saskatchewan, in its meeting held on the 19th

interference is as gratuitous an impertinence
as it would be for members of the
Church of England to meddle with the
funds of the Presbyterian Assembly of
Methodist Conference. In this correspond-
ence I have taken up a position from
which I decline to retire to wander into
side issues, and it is thus that a loyal
churchman actuated by a desire to elevate
the church would have deferred to the
constitutional decision of the synod
instead of appealing to the "man in the
street" to observe the performances in
clearing up the public laundry.

No Necessity For It.
The B. C. Colonist, of Aug. 12, contains
an article severely reflecting on the course
of the Fraser Valley relief committee in
appealing to the people of the Dominion
for aid to sufferers from the flood. The
penny sum of \$15,000, which the
province is well able to contribute itself,
it points out that there were large sub-
scriptions for the Twenty-fourth of May
and Dominion Day celebrations in the
cities of Victoria and Vancouver, and the
committee could readily collect three or
four thousand dollars in each city, and
wants to know why the committee cannot
go to work there instead of making the
country look ridiculous abroad. It points
out that when it was proposed to solicit
subscriptions in the east, representations
were made that there was no occasion for
the appeal as the province could look after
its own distress which was much exagger-
ated. The relief committee fully concurred
in that expression of opinion and there was
no expression of dissent from any part of
the province. It is also pointed out that
the accuracy and wisdom of that course
are demonstrated by the fact that the
sum now being required for relief, a
\$10,000 of the sum proposed to be raised
is for fencing to keep cattle off crops from
being supplied by the government. There
seems to be no reason for supposing that
those who have already contributed will
object to money being applied to this use.

Committee of the Synod of the Diocese of
Saskatchewan, in its meeting held on the 19th
of May 1894, at Prince Albert, has decided

PRINCE ALBERT, AUG. 21, 1894

The Colonial Conference held in
Ottawa lately has done much toward
furthering the cause of Imperial Federa-
tion. A few years ago this scheme
was looked upon by most of the public
papers as a wild chimera, and those
who advocated such a measure were
reckoned as little short of day-dreamers
holding visionary ideas that could never
be realized. But times
work wonderful changes, and not the
least on this subject. The completion
of this magnificent project is marching
on with irresistible rapidity and will
soon be an accomplished fact. And
we rejoice at the prospect, which, we
believe, will result in untold good to
the whole British Empire, both home
and colonial. With such Federation
we shall rest secure from the fear of
invasion of foreign foes, for in such
case there is not another power which
will have the temerity to attack us or
be able to deprive us of our liberties
and laws. We will have the glorious
privilege of belonging to the greatest
empire the world ever saw—the greatest
in magnitude and the greatest in the
arts and sciences, and more especially
great in bestowing liberty, light and
civilization to the world. We have
unfounded faith in the future of Great
Britain and her company of nations,
or as it is more aptly expressed in the
Scriptures, "the young lions thereof."
We believe that eventually our crossing
across the border who separated from
us in anger over a century ago, with
yet fall in line with us, and thus form
a great Saxon power which will rule
the whole world. It is now announced
that Mr. J. F. Hoan M. P. for the
Middle Division of Tippecanoe, Ind.
has already sailed for Canada for the
object of advocating Imperial
Federation.

We are glad to notice that the
Dominion Government are at length
going to make a move in protecting
our fisheries in Hudson's Bay and the
Arctic waters. It is high time that
something should be done in this mat-
ter, as from time immemorial the
Yankees have been reaping a rich
harvest in these waters. During the
regime of the Hudson's Bay Company
Yankee vessels were used to call every
summer at Marble Island and around
the north shores of Hudson's Bay for
the purpose of engaging in the whale
fishery and trading with the Equi-
maux. It is high time that a stop
should be put to these proceedings, as
we believe that had the United States
an inland sea such as Hudson's Bay,
Canadian vessels would hardly be per-
mitted to trade therein. The fuss
that has been kicked up about the
Pharosia sea, which is literally an
open sea, shows clearly what the United
States would do were the case theirs.
It is therefore with satisfaction that
we learn that the Canadian Govern-
ment has decided to send a cruiser to
Hudson's Bay to protect the whale
fisheries. We trust that before long
another cruiser will be sent to protect
the whale fisheries in the estuaries of
the Mackenzie River and the adjacent
coast.

It is remarkable with what rapid
stride the English language has made
its way during the past fifty years.
Previous to that time the French lan-
guage was the leading language of most
of the European Courts and was
universally the language of diplomacy.
But of late years the English language
has taken its place, both in diplomacy
and commercial intercourse. Of
course, the growth of a language de-
pends upon the expansion of power,
and looking at it from that standpoint
it must be conceded that the English
language bids fair to be the universal
speech of the world. England is the
great colonizer of modern times. She
has taken possession of America, of
Australia, of Africa and the principal
part of the Pacific Islands. At present
the populations either speaking the
English language or under the domina-
tion of English speaking people number
more than 320,000,000 or one
fourth of the population of the globe.
English speaking people occupy one
fourth of the dry land of the earth,
and own nearly two thirds of the ton-
nage of the ships. They live in all

regions; they handle all the articles of
trade; they preach to all nations;
they command one half of the world's
gold and silver, and distribute more
than two thirds of the Bibles and
Testaments. More than one half of
the letters mailed and carried by the
postal service of the world are written,
mailed and read by the English speak-
ing populations. It is calculated that
with one hundred years English will
be spoken by 863,000,000 people, Ger-
man 124,000,000 and French by
96,000,000.

According to the Winnipeg paper
Lord and Lady Randolph Churchill
gravelly offended Prairie City society
by their departure during their brief
stay. Many of the citizens, it ap-
pears, "turned away indignantly at the
harsh manner displayed by the
visitors," who absolutely declined to
put themselves on view on the station
platform for the benefit of the assem-
bled and indignant crowd. The paper
which announces this fact, also men-
tions that Lord Randolph suffered a
relapse between Montreal and Win-
nipeg and was weaker than when he
started out, but in the home of Joe
Marin this was not an excuse of his
refusal to appear. As the Arizona
Kicker would say, Winnipeg expects
strangers to do his duty to the citizens,
and when he does not, he hears from
Winnipeg. —Montreal Gazette.

The Chinese first got credit for a
victory in the fight at Yashan, but later
advice indicates that the affair was a
success for the Japanese. Before re-
peating much that comes from the
east of war it will be just as well
to wait for the second report. King
David was speaking of Easterners
when he exclaimed in his wrath that
"if men were Huns, and the further
East the truer they were the more
foundation does there appear for the asser-
tion."

Some Ontario people want a close
season established for frogs. The de-
mand for the legs of King Pippins of
millifolious voice is so great that he
and his tribe are in danger of extirpa-
tion, and not only is a source of
human protein liable to be destroyed,
but the mush places may become silent
as a church whose choir has struck
Lud. The law which demands the snipe
and the lobster east its shell over the
slightly but endangered frog.

Lord Rosburgh has entered three
horses for the Derby of 1896. The
Premier either intends to play the
horsey side against that of the anti-
horsey none other than or else he
expects by 1896 to be in a position
where votes and popular clamor will
not matter to him. As Lord Salisbury
is working to put him into oppo-
sition, it may be that his possible
expectations will be realized.

Two London anarchists have been
sent to prison for six months for allud-
ing to the Queen and her family as
vermin and using language calculated
to incite to murder. Even in Eng-
land a man may say the thing he will,
only when he says it decently and as
becomes a man. The anarchists have
lessons to learn everywhere.

The official report of Sir W. Robin-
son, the British governor of Hong
Kong, declares that 120,000 persons
have died in China of the plague.
These figures sound large, but they
make but very little impression on
40,000,000 population. The situation
is as if a seven-year-old child had died
in Montreal.

Mr. Dobs, in his speech at the Terre
Haute demonstration in his honor,
said he had been through the last
strike he will engage in. Mr. Dobs
has evidently come at last to the con-
clusion, which the majority of people
reached long ago, that his strike was
a failure. He has come over to the
sensible majority.

Wheat sold on Friday in Chicago at
50¢ cents a bushel. It looks as if
those who a few years ago watched for
the record of dollar wheat in the win-
try city and wondered thereat, might
see the even figure and half-dollar
wheat a matter of ordinary commerce.
The miracle of wheat is not done
working yet.

If the allegations of the Ontario
election petitions are correct there
was a recent saturnalia of corruption
at the recent contest. If the allega-
tions are not well based the province
must have a lot of shameless slan-
ders in its population. In any case
Ontario seems to be a bad place full
of bad men.

Japan is asking United States firms
to supply its army with a million
pounds of corned beef. The thought
of war is a very ill wind, but it blows
good to us who have to sell what
the murderous belligerents need to
buy.

The biggest book in the world will
be a catalogue of the British Museum.
It has been in preparation 13 years.
Over 1,400,000 distinct titles and en-
tries have been printed in all sorts of
languages.

Mr. Woodford, a Whitewayite, has
come over to the Newfoundland
government's side, and made it strug-
gle than was expected. Mr. Goodridge
is learning that in Newfoundland
politics nothing succeeds like success,
and Sir William Whiteway is discover-
ing that nothing fails like failure.

Italy is sending her Anarchists in
batches to Massowah. Massowah is
one of the hottest and most unconfor-
table places in Africa outside of the
Saharan desert. Massowah should
be a proper place for men whose aim is
to make everybody but themselves
sweat.

Mr. David H. Jordan of Edmonton, N. Y.

Colorless, Emaciated, Helpless
A Complete Cure by HOOD'S
SARSAPARILLA.

This is from Mr. D. M. Jordan, a re-
tired farmer, and one of the most re-
spected citizens of Ontario, N. Y.
"Fourteen years ago I had an attack of the
gravel, and have since been troubled with it."

Liver and Kidneys
gradually growing worse. Three years ago I
could do so little that I could scarcely walk.

I had more like a corpse than a living being.
I had no appetite and for six weeks I was
unable to eat. I was finally compelled to
have a surgical operation for a movable stone.
After the operation I was prostrated and I
thought I would die. Before I had finished
the first bottle I noticed that I felt better, and
my food and sleep began to return. After
I had taken three bottles I could do anything
without feeling any pain. I put up a notice
that I had cured myself. I have now
fully recovered, thanks to

Hood's Sarsaparilla
I feel well and now I am able to do my
usual work. I am now a healthy man.
HOOD'S PILLS are the best after-dinner pills,
aid digestion, cure headache and biliousness.

TENTH ANNUAL MATCHES

Of the Saskatchewan Provincial Rifle Association.

The annual matches of the Saskatchewan Provincial Rifle Association commenced Thursday last, and were completed Saturday evening. The attendance this year was rather better than usual, while the prizes were an exceptionally good one. The Ladies' Match, Saturday afternoon brought the meeting to a close, and drew out a large number of spectators, principally ladies. The lady members of the Association had prepared luncheon, which was partaken of and heartily enjoyed by the competitors and others. After completion of the Ladies' Match the distribution of prizes took place, the proceedings being opened by a neat speech from the President, Mr. Jas. McKay, who thanked all those who had so kindly donated prizes for the occasion. Mrs. Macdonald kindly consented to distribute the prizes, which duty she performed in her usual kindly and graceful manner. After which cheers for the ladies, the President and the Queen brought the meeting of 1914 to a close.

The following were the competitors, with their scores:

A CIRCUS

ON THE BILL-BOARDS

and a circus on circus day are two kinds of a thing. The greatest circus is usually on the bill-boards, and the circus on Circus Day is consequently a disappointment. There is, of course, the occasional exception which proves the rule. McCormick Binders and Mowers are an exception. Their promise on the "Bill-boards" is always fulfilled on "Circus Day." For years the makers of McCormick Grain and Grass Harvesters have been telling the world that they could and would at any time demonstrate the superiority of their machines in the actual competitive field test. The "Bill-boards" of other manufacturers have plainly proclaimed that their machines are the best. But "Circus Day" came at length. The World's Fair urged all these manufacturers to take their machines into the field that the results might be compared. The McCormick was there; its show went on. Its promises to the world were carried out. But how about the other "great and only"? They stayed at home consoling themselves with the reflection that "the people like to be humbugged," and their artists got up new pictures for the "Bill-boards." Before deciding about going into these field trials, the competitors of the McCormick went and examined the crops to be cut, and realizing the severity of the conditions, they said to themselves: "We don't propose to come here and compete with the McCormick." "A five covered is better than a dead hero," "a sucker is born every minute, and we'll catch some of 'em anyway." That policy may answer for the "Bill-board" sort of circus; it will not do for the McCormick. Promises must not be broken. If McCormick machines are not better than all others, they must not be so advertised. If they are so advertised, every Binder, every Reaper and every Mower must be ready at a moment's notice to go out into the field and show up. That's business. Write to the McCormick Harvesting Machine Co., Chicago;—or, better yet, call at once on your nearest McCormick agent.

How can They Sell Them

So Cheap?

Oh! My, Ain't that Pretty?

These are the explanations that burst from the mouths of our customers when they look at our large and valuable stock.

New Furniture!

In answer to the above questions we reply that we are large and our stock is large and our prices are low because they are based on the principle of not all seasons but on a basis of prices in fact.

It is our purpose in the near future to add a line of Paints, Oils, Varnishes, etc. to our stock, which we will sell at a very low price and not all seasons but on a basis of prices in fact.
